Profile

Software engineer, statistician, and teacher. As a software engineer, enjoy leveraging experience as a statistician and teacher by working in organizations that value input from their technologists about varied aspects of their digital product. Work best surrounded by smart people who generously share ideas.

Skills

SOFTWARE ENGINEERING

Intermediate proficiency: HTML, CSS, Bootstrap, Javascript, JQuery, Express with Node.js, MVC with REST, React, Python, Flask, mongoDB, SQL, Git, GitHub, and Agile workflow

STATISTICAL PROGRAMMING

R, C, SAS, vi, LaTeX, RMarkdown

SOFT SKILLS

Public speaking, professional writing

Education

PHD in STATISTICS

University of Chicago

BS in MATHEMATICS

University of Texas at San Antonio

SOFTWARE ENGINEERING FELLOW

General Assembly, Chicago

Experience

SOFTWARE ENGINEERING FELLOW – General Assembly, Chicago, 2019-present

General Assembly is a global leader in technology education

- **Programming:** Designed and built web applications using Javascript, JQuery, HTML, and CSS.
- **Web development:** Designed and built full-stack applications using Javascript, Express with Node.js, React, Python with Flask, noSQL and SQL databases
- **Version control:** git and Github

SENIOR LECTURER IN STATISTICS – University of Chicago, 2003-2009, 2012-2019

University of Chicago is a top-tier research institution with a top-five statistics graduate studies program

- **Teaching:** Taught statistics to 2500+ diverse, high-achieving undergraduates.
- **Training:** Held workshops for 800+ students new to R and RMarkdown
- **Mentoring:** Guided new lecturers and graduate student instructors.
- **Advising:** Offered course and degree plan advising to statistics majors, minors, and non-majors.
- **Data analysis:** Programmed in R, C, and SAS. Wrote reports using LaTeX and Markdown.

RESEARCHER AND STATISTICIAN – Chapin Hall at the University of Chicago, 2009-2012

Chapin Hall is a research and policy think tank for issues relating to the welfare of children and families

- **Risk analysis:** Wrote SQL queries and SAS programs to analyze and present data for researchers and policy makers regarding the experiences of over 1.5 million children in foster care in 26 states.
- **Professional writing:** Co-authored or contributed to the methodology sections of white papers, policy proposals, and peer-reviewed research.
- **Public speaking:** Delivered talks on statistical analyses and their results to technical and non-technical audiences of sizes 10 to 300.

Other Tech Interests

Collins family tech guru: Act as the family tech help desk -- building desktops, doing complete tear-downs of laptops to replace that noisy fan or cracked screen, advising on tech purchases, etc.
